1. Notifying the SEC

1.1. Statewide Events

For statewide events, the SEC is notified by the Michigan State Police via E-Team notification when the SEOC is fully activated, or a need for amateur radio is perceived.

The SEC also monitors E-Team to be alert to incidents which may deteriorate to the point that SEC attention is required.

1.2. Local/Regional events

For local or regional events, the affected EC should notify the SEC by cell phone (989-430-4855) or E-Team notification. For events of lower urgency the EC may prefer email. When the EC is under significant pressure (as is often the case in the event of an activation), the EC may delegate notification to the DEC.

1.3. SEOC Station Activation

When the SEOC is fully activated, the Michigan State Police notifies the station manager by pager. For other events, the SEC may notify the station manager by telephone as required.

1.4. SEC Staff Notification

As required, the SEC may notify the Assistant SECs by telephone.

2. Notifying the Districts

The SEC will notify the DEC's by E-Team notification. If time permits, those DEC's who cannot be reached via E-Team will be notified by telephone. The E-Team notification list is as follows:

- District 1 - Daniel Sprow
- District 2 - John Fleming
- District 3 - Stan Darmofal
- District 5 - Art Snapper
- District 6 - Jeffrey Nawrot
- District 7 - Thomas Duggan
- District 8 - Lou Gembolis

In addition, all the ASEC's are included in that notification. DEC's are strongly encouraged to join E-Team themselves, and ensure at least one assistant DEC also is qualified for E-Team. Less than half of the DEC's currently are qualified for E-Team.

2.1. National Weather Service Offices

Currently, none of the NWS DEC's have E-Team capability. As a consequence, NWS DEC's will be notified by telephone as appropriate.

2.2. Regional and Local Incidents

In the case of a regional or local event where the SEC becomes involved before the DEC, the SEC will typically notify the affected DEC by telephone. Depending on the incident, nearby DEC's may also be notified.
